#### Livestock Registering Federation

The Livestock Registering Federation (LRF) is a non-profit organisation established in 2000 following the release of the Animal Improvement Act (Act No. 62 of 1998) enabling breed societies to keep their own animal records and performance data.

The LRF unites, promotes and protects its members, advocating the use and application of the latest technologies in animal breeding and providing a platform to educate producers and enhance livestock production.

The LRF also acts as a liaison and coordinator between BREEDPLAN (service provider) and the registering authorities, particularly in the development and application of new technologies.

#### Die Lewendehawe Registrerende Federasie

Die Lewendehawe Registrerende Federasie (LRF) is 'n nie winsgewende organisasie wat in 2000 tot stand gekom het na aanleiding van die Wet op Dierverbetering (wet no. 62 van 1998), wat genootskappe in staat gestel het om hulle eie diere-registrasies en prestasiedata te verwerk.

Die LRF verenig, bevorder en beskerm sy lede, moedig die gebruik en toepassing van die nuutste tegnologieë in diereiteling aan en bied 'n platform om produsente op te lei en vesproduksie te verbeter.

Die LRF tree ook op as 'n skakel en koördineerder tussen BREEDPLAN (diensverskaffer) en die registrerende owerhede, veral in die ontwikkeling en toepassing van nuwe tegnologieë.
